

NEW! Industrial 2-Port RS232/RS422/RS485 Serial Device Server

» ICS-2200T

Cost-effective Solution for RS232/422/485 Serial-to-Industrial Ethernet Application

PLANET ICS-2200T Serial Device Server is specially designed to convert RS232, RS422 or RS485 serial communication to Industrial Fast Ethernet networking so as to extend the network distance efficiently and inexpensively. There are two 10/100BASE-TX RJ45 ports available in the ICS-2200T for your network needs. The ICS-2200T is a time-saving and cost-effective solution for users and system integrators to quickly transform their serial devices into the Ethernet network with no

Convert Multiple Serial Devices to IP Networking
